### STEP 1:

Open up the box of brackets and hardware to make sure you have all the items listed below before you initiate the installation.

### NOTE

Allways refer to the Bolt Pattern at every step of the entire installation for a successful work.

**Fits:** 2020-22 Toyota Highlander Rear Bumper Protector

### STEP: 2

The picture on the right illustrates the passenger side bracket being installed. Notice that you should locate the chassis hole easily right above the muffler. Use the right hardware as it appears in the image.

### STEP: 3

The image on the left illustrates the driver side bracket being installed. Notice that you should be using the right hardware as it appears in the image. Repeat similar procedure as the passenger side bracket. However, You have to trim well that area so that the bracket would have room to fit in place.

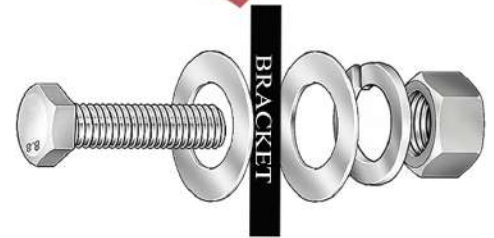

**Fits:** 2020-22 Toyota Highlander Rear Bumper Protector

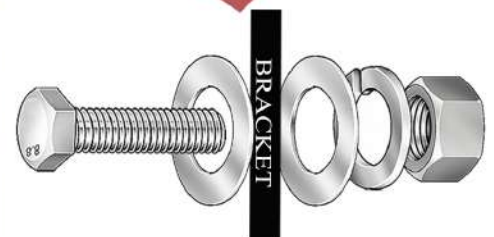

### STEP: 4

Always using the bolt pattern as shown on the diagram below. Continue by installing rear bumper guard. Notice that in some cases you would have to use pressure to push the legs of the bumper guard so that the bracket can reach each other and utilize the screws and bolt to make it tight.

### STEP: 5

Please repeat same procedure on the other side when installing the bumper guard to the bracket.

**Fits:** 2020-22 Toyota Highlander Rear Bumper Protector

AT THIS POINT YOUR REAR BUMPER PROTECTOR SHOULD LOOK LIKE THIS WHEN INSTALLED SUCCESSFULLY. IF YOU HAVE ANY CONCERN PLEASE CONTACT US AT THE NUMBER PROVIDED IN THE FIRST PAGE OR VISIT US AT [BROADFEET.COM](http://BROADFEET.COM).

THESE BRACKETS ARE ALSO USED TO INSTALL THE REAR PINTLE SINGLE PIPE AND DOUBLE PIPE PAPER CLIP STYLE.
