## STEP 1:

Open up the box of brackets and hardware to make sure you have all the items listed on page 2 before you initiate the installation.

## STEP : 2

Please follow the schematic to line up the brackets properly.

**Fits:** 2020-22 Toyota Highlander R Series Running Boards

## STEP: 3

Please check all of the brackets and hardware as shown in the pictures on the left. Notice that each bracket is numbered in order to install them periodically. It is very important to follow closely the schematic on page 1 according to the numbers to have a successful installation.

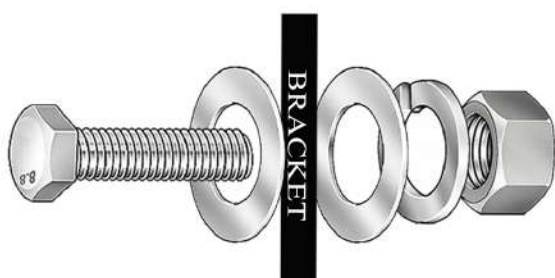

## STEP: 4

Once you have identified and positioned every bracket and hardware accordingly. Move on under the car and remove the splash guards so that it can clear the chassis holes needed to install brackets.

## NOTE

Allways refer to the Bolt Pattern at every step of the entire installation for a successful work.

**Fits:** 2020-22 Toyota Highlander R Series Running Boards

## STEP: 5

Time to start installing the brackets. You will be starting the installation with the front brackets and follow the numbers.

## STEP: 6

The picture above illustrates the middle bracket being installed.

**Fits:** 2020-22 Toyota Highlander R Series Running Boards

## STEP: 7

The picture on top shows the rear bracket being installed.

## STEP: 8

Repeat same procedure on the other side to finish installing all the brackets. After everything is in place. Continue with the boards as shown in the pictures above and right. position the screws situated under the board so that you can place it on top of the brackets well lined up.

**Fits:** 2020-22 Toyota Highlander R Series Running Boards
